THURSDAY EVENING, JULY 14, 1904.

Russian Famine Feared Fears expressed months ago in regard to the Russian harvest are abundantly confirmed by reports from various provinces. The harvest in Bessarabia is almost a complete failure. The prices of stock have risen, and in consequence of the decline of wages numbers of laborers have gone to seek work outside the province. Residents of the comthe province. Residents of the com-mune of Bachuri, Ismailsk, have peti-tioned the governor to allow them to postpone payment of taxes. Many corn cultivators are reduced almost to beggary. In Kieff province the governor has instructed the local authorities to take all possible precaution against famine. Late frosts seriously injured the crops. Fruits and vegetables in Kharhoeff province suffered severely from frost and rain. In the western province of Moghlieff many peasants are begging, and the official journal of the province complains of a large increase of theft.

The prospective failure of the crops in some of the southern provinces, possibly attendant with famine, and the necessity of adopting relief measures is beginning to attract attention in St. Petershapes. burg. The government of Kherson, Bessarabia, Taurida, Poltava and Khar koff are principally affected. In the district of Triaspol the peasants have already been compelled to harvest the unripe crops to feed the live stock. Committees have been appointed to relieve

The failure of the crops is attributed to the early autumn frosts, insufficient moisture while sowing, the fluctuating weather of the winter, the total absence of snow, the heavy frosts which followed the late spring frosts in May, and the

The Petersburg passed from the Black Sea through the Darda"just as good," will not do the work nelles as a mercantile steamer, under a commercial flag, and would not have been allowed to pass as a warship. She then mounted guns as a cruiser. Her status at present is taken to be that of a privates with a strong flaggary the visits. with a strong flavor of the pirate. Auxiliary cruisers are, of course, recog nized as legitimate, but not vessels which change at will from the commercial to the war flag. It is strongly telt that the British government must resent the action of this steamer and prevent a repetition, lest a dangerous precedent be cre-ated. Already the circumstances of the case, taken with the confiscation of the British steamer Allanton, give rise to undesirable comments. Why, it is ask-ed, do these incidents happen only to British steamers and not to those of nations like Germany or America, whose governments are known to be quick to resent interference with their subjects!

Triumphs of Modern Surgery. Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they may be removed en-tirely; bones are spliced; pipes take the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in onethird the time required by the old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It a'so
